Ana Lily Amirpour

"The most shocking thing is that a black-and-white Iranian vampire film made it into American movie theatres," says director Ana Lily Amirpour of *A Girl Walks Home Alone at Night*. Out later this year, her first film chronicles a lonely female vampire stalking the streets of a ghost town. So after revamping the bloodsucker genre, what will she do next? "A dystopian cannibal love story set in a Texan wasteland called *The Bad Batch*."
